

**Instructions for mixing:**

GIMPET Cat-Milk is mixed using a little almost boiling water. Then add the rest of the water slowly whilst mixing vigorously.

Can be fed after cooling down to body temperature.

**Hygiene is extremely important. Prepare freshly for every feed.**

**Dilution table:**

	<b>Cat-Milk</b>	<b>Hot water</b>
Cat breeding	1 teaspoon* (approx. 4 g)	3 teaspoons*
Young cats	1 tablespoon* (approx. 13 g)	3 tablespoons
Pregnant and feeding females, old and frail cats	1 tablespoon*	5 tablespoons*

\*heaped

**Feeding table:**

<b>Age of the cats</b>	<b>Teaspoon of Cat-Milk solution</b>	<b>Feeding times</b>
From birth to 2 weeks	1	Every 2 hours day and night
2 <sup>nd</sup> – 3 <sup>rd</sup> week	1 ½ - 2	Every 2 hours from 6 a.m. until midnight
3 <sup>rd</sup> – 4 <sup>th</sup> week	3	Every 3 hours from 6 a.m. until midnight
From the 4 <sup>th</sup> week	Increase accordingly and give in addition to solid food	4 to 6 meals during the day
Adult cats	Add 2 - 5 portions	depending on the situation
